

# BISTRO TWISTER SERIES

SERIES: PAVESI TRADITIONAL BRICK OVENS

PAVESI

Standard Pavesi  
Bistro Twister 110

## FEATURES

Pavesi Bistro Twister Ovens meld classical and cutting-edge culinary techniques into one exceptional oven with a rotating, refractory oven floor. Wood fuel is combusted within the oven hearth, to the side of the rotating floor. A steel ash catch allows wood to burn and drop into a fire-proof container placed on the floor underneath the oven. A state-of-the-art gas burner electronically reads the oven floor temperature to maintain the desired baking heat. Developed and manufactured in Modena, Italy for almost 50 years, Pavesi is a pioneer in high-performance refractory materials. More information can be found online at [www.forzaforni.com](http://www.forzaforni.com).

## SIZING

## MONOBLOCK FLOOR

The world's only one-piece refractory floor. No tile gaps for incredible heat-transfer and retention.

## AVAILABLE IN

WOOD/GAS

Approved by  
the Association  
of Neapolitan  
Pizzaiuoli of  
America
